KNCV Nigeria UnionCONF26 Presentation Schedule

DAY 1: TUESDAY 17TH

12:05 – 12:15
Oceania IV

Chidubem Ogbudebe - Oral
Evaluating the tailored TB screening and notification intervention among nomadic pastoralist populations in Nigeria

12:25 – 12:35
Oceania IV

Finbarr Okoye - Oral
Portable digital chest X-ray with computer-aided detection (CAD) for tuberculosis screening among high-risk mobile populations: The Hajj pilgrimage experience in Nasarawa State, Nigeria

13:15 – 13:20
E-P Screen 2

Chidubem Ogbudebe - EPoster
A programmatic approach to identifying 'hidden burdens': Using notification-to-prevalence ratios to prioritise resource allocation at the LGA level in Nigeria

15:12 – 15:19
Oceania IV

Terfa Kwaghgba - Oral
Improving childhood tuberculosis (TB) case detection through targeted community active case finding (ACF): Programmatic evidence from Taraba State, Nigeria

16:56 – 17:04
Oceania IV

Mustapha Tukur - Oral
Improving tuberculosis preventive therapy uptake among household contacts of people with TB: Experiences implementing the new shorter regimens and community initiation across five states in Nigeria

17:33 – 17:42
Alhambra I/II

Hauwa Usman Garba - Oral
Aligning anthropometric measurements with the W4SS TB screening checklist: Impact of healthcare worker training in nutrition clinics

KNCV NIGERIA
Knowledge Network for disease Control and Vigilance

KNCV Nigeria UnionCONF26 Presentation Schedule

DAY 2: WEDNESDAY 18TH

09:27 – 09:34 **Oceania IV**	**Kelvin Anadi - Oral** Exploring breastfeeding concerns among women affected by tuberculosis: Qualitative insights from antenatal women, mothers, partners, and health workers in Nigeria
12:10 – 12:15 **E-P Screen 2**	**Steven Batur - EPoster** Hidden in plain sight: Uncovering asymptomatic TB through portable digital X-ray under the KNCV–Global Fund CPPM grant in Nigeria
12:30 – 12:36 **E-P Screen 6**	**Tracy Isha - EPoster** Strengthening community tuberculosis case finding through digital innovations: Lessons from the CommTB app in Bauchi State
13:20 – 13:25 **E-P Screen 5**	**Peter Nwadike - EPoster** Decentralising the hunt: Impact of mobile molecular testing on bacteriological confirmation rates of childhood TB in rural Nigeria
13:20 – 13:25 **E-P Screen 6**	**Sani Useni - EPoster** Impact of care delivery model on treatment outcomes and retention among people with drug-resistant TB on bedaquiline, pretomanid, linezolid, and moxifloxacin (BPaLM) in Kano, Nigeria
14:00 – 14:05 **E-P Screen 2**	**Bethrand Odume - EPoster** Scaling AI-enabled TB screening with remote radiology: Inter-reader agreement from a National TB Programme in Nigeria
14:15 – 15:45 **Segovia IV**	**Bethrand Odume - Chair** Transforming TB detection through community action

KNCV NIGERIA
Knowledge Network for disease Control and Vigilance

KNCV Nigeria UnionCONF26 Presentation Schedule

DAY 2: WEDNESDAY 18TH

14:27 – 14:34
Oceania IV

Victor Mosaku - Oral
Enhanced domestic resource mobilisation drive: An innovative financing model to mitigate donor funding fatigue in TB service delivery in Nigeria

14:27 – 14:36
Segovia IV

Mika'ilu Saminu Idris - Oral
Taking diagnosis to the underserved communities, Truenat machine deployment in hard-to-reach communities to improve case detection: Experience from Kano State, Nigeria

14:36 – 14:45
Segovia IV

Mustapha Tukur - Oral
Comparative analysis of community-based active case finding interventions using traditional symptoms screening and those using AI-enhanced mass CXR screening: Experiences from eight states in Nigeria

14:54 – 15:03
Segovia IV

Husna Baffa - Oral
Where AI enhanced portable digital X-ray machines makes the biggest impact: Comparing TB case finding in rural and urban LGAs in Kano State, Nigeria

KNCV NIGERIA
Knowledge Network for disease Control and Vigilance

KNCV Nigeria UnionCONF26 Presentation Schedule

DAY 3: THURSDAY 19TH

13:15 – 13:20
E-P Screen 9

Cynthia Onwuteaka - TBScience EPoster
Comparing enrolment rates and treatment outcomes between artificial intelligence powered portable digital X-ray and symptomatic screening approach to TB case finding in Cross River State, Nigeria

13:20 – 13:25
E-P Screen 3

Chinenye Igwetu - EPoster
Addressing missed safety signals in decentralized DR-TB care: Programmatic risks for mortality and loss-to-follow-up identified during supportive supervision in Kano State, Nigeria

13:20 – 13:25
E-P Screen 6

Tessy Theodore - EPoster
Beyond the riverbanks: A community-led integration strategy for enhancing TB case finding in underserved PHC settings — Lessons from Omor, Anambra State

13:40 – 13:45
E-P Screen 6

Chidubem Ogbudebe - EPoster
Evaluating the impact of a peer-led, male-targeted TB screening model in reducing the diagnostic delay among working-age men in Nigeria

13:45 – 13:50
E-P Screen 7

Iboro Gordon - EPoster
Integrating AI-driven chatbots into national TB programs: Lessons from the implementation of a WhatsApp-based TB treatment support chatbot in Nigeria

14:00 – 14:05
E-P Screen 3

Gift Maren - EPoster
Turning the tide on TB mortality: A data-led, community-focused response to high death rates in Plateau State

17:06 – 17:15
Segovia IV

Eze Chukwu - Oral
From tuberculosis to broader chest disease: Integrated screening of multiple pathologies using AI-enabled portable X-ray in Nigeria

KNCV NIGERIA
Knowledge Network for disease Control and Vigilance

KNCV Nigeria UnionCONF26 Presentation Schedule

DAY 4: FRIDAY 20TH

12:00 – 13:00 E-P Screen 8	**Bethrand Odume - Chair** From pilot to programme: Nigeria's national experience scaling technology-driven TB case finding
12:10 – 12:15 E-P Screen 8	**Kingsley Obideje - EPoster** When the screener becomes the patient: A call for enhanced occupational safety for Nigeria's TB frontline health workforce
12:10 – 12:15 E-P Screen 6	**Bashir Idris Alhassan - EPoster** Improving TB detection through active case finding: Results from multiple intervention strategies in hard-to-reach communities in Bauchi State
12:15 – 12:20 E-P Screen 8	**Eucharia Asuquo - EPoster** Healthcare worker perceptions and training needs for near point-of-care portable digital X-ray use in rural Akwa Ibom State
12:20 – 12:25 E-P Screen 5	**Idara Edo - EPoster** Digitising active tuberculosis(TB) case finding: Impact of mats app optimisation on PMV screening and presumptive tracking in Global Fund project, Akwa Ibom State, Nigeria
12:25 – 12:30 E-P Screen 5	**Omotayo Salau - EPoster** Improving TB case detection in hard-to-reach communities: Multi-state evidence on the impact and efficiency of AI-enabled portable digital X-ray in Nigeria
12:30 – 12:35 E-P Screen 5	**Eze Chukwu - EPoster** From innovation to national scale: Operationalising 400+ AI-enabled portable digital X-ray platforms for community TB screening under Nigeria's Impact Project

KNCV NIGERIA
Knowledge Network for disease Control and Vigilance

KNCV Nigeria UnionCONF26 Presentation Schedule

DAY 4: FRIDAY 20TH

12:40 – 12:45 E-P Screen 6	**Adeola Izokpu - EPoster** Safety first: Radiation protection, quality assurance and regulatory compliance in large-scale portable X-ray deployment in Nigeria
12:45 – 12:50 E-P Screen 6	**Kenneth Ekpen - EPoster** Harnessing digital integration through XMAP: KNCV Nigeria's model for real-time co-ordination of PDX deployments nationwide
12:50 – 12:55 E-P Screen 6	**Abishai Galadima - EPoster** Integrated HIV, hepatitis B, syphilis and tuberculosis screening for pregnant women in unconventional service delivery points: Evidence from KNCV Nigeria's GC7 implementation in Katsina State
13:10 – 13:15 E-P Screen 8	**Sani Useni - EPoster** Linking virtual competency-based training (VCBT) to TB programme performance for health system resilience in Nigeria
13:15 – 13:20 E-P Screen 6	**Amina Kewa - EPoster** Beyond the index patient: Opportunistic TB screening of accompanying relatives in public health facilities in TB LON regions 1 & 2, Nigeria
13:25 – 13:30 E-P Screen 8	**Zephaniah Gideon - EPoster** Strategic optimisation of wellness-on-wheels (WoW truck) in a community and health care facility approach to improve TB case finding in Bauchi State, Nigeria
13:40 – 13:45 E-P Screen 7	**Kenneth Ekpen - EPoster** Integrating mobile X-ray vans and portable digital X-ray units for hard-to-reach populations: Comparative effectiveness of a hybrid deployment model

KNCV NIGERIA
Knowledge Network for disease Control and Vigilance

KNCV Nigeria UnionCONF26 Presentation Schedule

DAY 4: FRIDAY 20TH

13:40 – 13:45 E-P Screen 8	**Blessing Noah - EPoster** Strengthening tuberculosis (TB) referral and linkage systems to reduce pre-treatment loss to follow-up (PTLFU): Lessons learnt from three states of South-South Nigeria
13:40 – 13:45 E-P Screen 2	**Tosin Agunbiade - EPoster** Optimising TB sample referral networks through a digital sample movement logistics dashboard in Kaduna State, Nigeria
13:45 – 13:50 E-P Screen 4	**Auwal Salisu Muhammad - EPoster** Yield of household contact investigation for childhood tuberculosis in urban high-burden setting: A case study of eight high-burden LGAs in Kano State, Nigeria
13:45 – 13:50 E-P Screen 8	**Micheal Sheshi - EPoster** Comparing private sector engagement models for tuberculosis case notification in Kano State, Nigeria
13:45 – 13:50 E-P Screen 9	**Chika Ali - TBScience EPoster** Leveraging PDX with AI support for community TB case detection in riverine communities
13:55 – 14:00 E-P Screen 8	**Ernest Obaseki - EPoster** Aligning incentives with programme quality standards to strengthen accountability in TB service delivery in Nigeria
14:00 – 14:05 E-P Screen 8	**Saviour Nkanu - EPoster** Leveraging COMMTB app and community actor engagement for active TB case finding in Akwa Ibom State, Nigeria

KNCV NIGERIA
Knowledge Network for disease Control and Vigilance

KNCV Nigeria UnionCONF26 Presentation Schedule

DAY 4: FRIDAY 20TH

14:50 – 14:58
Asia IV

Abishai Galadima - Oral
Improving public-private mix (PPM) contact tracing through community engagement: Innovative approaches beyond the clinic in Katsina State

15:02 – 15:09
Oceania VI/VII

Nera Kadiri-Eneh - Oral
Doubling childhood TB case detection through task-sharing: Evidence from lay facility workers in Rivers State, Nigeria

15:09 – 15:16
Oceania VI/VII

Habusafwan Ibrahim - Oral
Community-based strategies for paediatric TB case finding: The role of patent medicine vendors (PMVs) in improving childhood TB cases in Bauchi State, Nigeria

16:51 – 16:59
Oceania IV

Chidubem Ogbudebe - Oral
Scaling the 'hub and spoke' model to engage patent and proprietary medicine vendors in TB referral networks

KNCV NIGERIA
Knowledge Network for disease Control and Vigilance
